# KEYPADS & KITS

## PROMI-ECO

**Entry level, self-contained keypad, with advanced features**

- ABS case
- 100 User codes\*
- 1 Exit button input
- Timed relay output
- Programmed via master code
- LED & Audible indication
- Voltage: 12V AC/DC Current: 80mA
- 76mm x 135mm x 20mm
- Environmental: **IP54**

\* For more users: Promi-K Keypad gives 500 codes

DESCRIPTION	CODE	STOCK
Keypad alone	PROMI-ECO	✓
Kit with magnet	KPD/KIT1/M	✓
Kit with release	KPD/KIT1/R	✓

## CBB & CAA

CBB

CAA

**Heavy duty, self-contained keypads, in marine grade stainless steel**

- CBB Surface fit CAA Flush fit
- Stainless steel finish
- 100 user codes
- Braille Buttons
- 1 exit button input
- 2 relay outputs
- CBB: 105 x 125 x 65
- CAA: 105 x 120 x 2
- Voltage 12/24V AC/DC Current: 80mA
- Environmental: **IP63**

DESCRIPTION	CODE	STOCK

Keypad alone (2 Relays)	GALEO-2R	▪
Kit with magnet	KPD/KIT3/M	✓
Kit with release	KPD/KIT3/R	✓

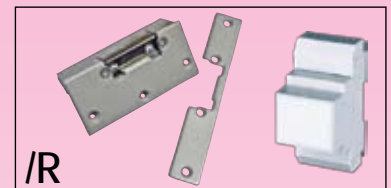

## CDVI Keypads & Kits

### Kits include

- The keypad
- Power supply unit
- Locking device

**All kits are available with either:**

**RELEASE**  
(a GAER strike with 12V AC power supply)

/R

or

**MAGNET**  
(ECS300 magnetic lock and 12V DC power supply)

/M

*Kits are NOT supplied with exit buttons: please see page 11.9 or the CDV catalogue for the range.*

*Stock items (marked with a "✓") are available immediately; "Non Stock" items (marked with a "▪") will usually be available in about one week - please check with us*

*There are many other keypads in the range - please ask us*

# STANDALONE & ONLINE

## CDVI Standalone and Online Access Control

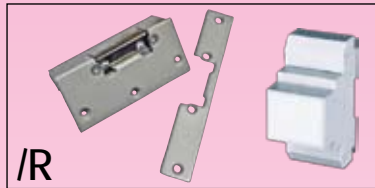

### Kits include

- The keypad
- Power supply unit
- Locking device

### All kits are available with either:

#### RELEASE

(a GAER strike with 12V AC power supply)

/R

or

#### MAGNET

(ECS300 magnetic lock and 12V DC power supply)

/M

Kits are NOT supplied with exit buttons: please see page 11.9 or the CDV catalogue for the range.

Stock items (marked with a "✓") are available immediately; "Non Stock" items (marked with a "•") will usually be available in about one week - please check with us

There are many other keypads in the range - please ask us

## PROMI 500

### Self contained proximity reader/controller with 500 user capacity

- 500 user capacity
- Programmed via master code Prox, or PIN or PROX & PIN
- LED & audible indication
- Timed relay output & exit button input
- ABS case, 76mm x 135mm x 20mm
- Voltage: 12v AC/DC Current: 80mA
- Enviromental: **IP54**
- Option: Accepts a remote reader for better security
- DGLP - Sturdy, ABS body, **IP67**
- DGLI - Stainless steel, vandal resistant, **IP67**

DESCRIPTION	CODE	STOCK
Reader/controller alone	PROMI-500	✓
Kit with magnet	SA-KIT1/M	✓
Kit with release	SA-KIT1/R	✓
Standard reader	DGLP	✓
Stainless steel reader	DGLI	✓

## DGID

### The DGID, a biometric device using the latest technology to provide fast and reliable finger-scanning

- Completely standalone - does not require a card or keypad "pointing" device to locate a memorized finger template.
- Aluminium Case
- User capacity: 1000
- Exit input and lock output
- Voltage: 12v AC/DC Current: 80mA
- 188 x 162 x 26mm
- Enviromental: **IP54**

DESCRIPTION	CODE	STOCK
Reader/controller alone	DGID	•
Kit with magnet	SA-KIT4/M	•
Kit with release	SA-KIT4/R	•

## DGM-1

### The DGM-1 is a powerful contactless smart card reader/controller

With cardholder information held on the card, multi-site access is simplified. Up to 30 trade users can be set with time and date restriction - this system is ideal for pubs, clubs and large user capacity single entrances.

- Limitless user capacity
- ABS case (Mushroom reader)
- Voltage 12v AC/DC
- Dimensions: 135 x 76 x 20mm
- Current: 80mA
- Environmental: **IP67**

DESCRIPTION	CODE	STOCK
Reader & controller	DGM1	•
Hand-held programmer	PCV123	•

## Cards & Fobs

### Stocked smart card & fob

- CPC: ISO prox card (blank white) - printer friendly
- BP-PG - Standard grey prox key fob

DESCRIPTION	CODE	STOCK
Prox. fob	BP-PG	✓
ISO Prox. card	CPC	✓

# ONLINE ACCESS CONTROL: UGL SYSTEM

## UGL Online Access Control System

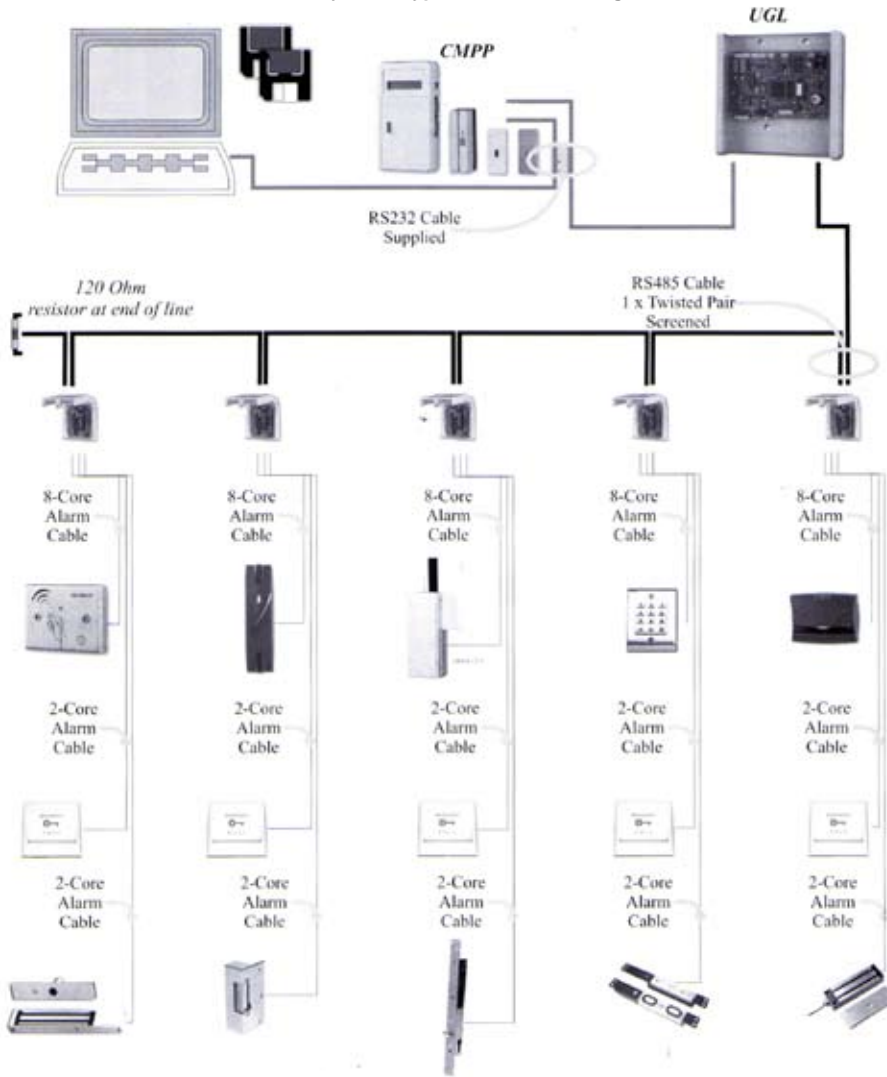

The UGL control unit is the heart of the 8-reader, online access control system.

The UGL system is ideal for pure uncomplicated access control, including a host of features not normally found in such a competitive product.

Multi-sites may be controlled from one host position; please

DESCRIPTION	CODE	STOCK
System controller c/w PSU	UGL	•

UGL System: Typical Schematic Diagram

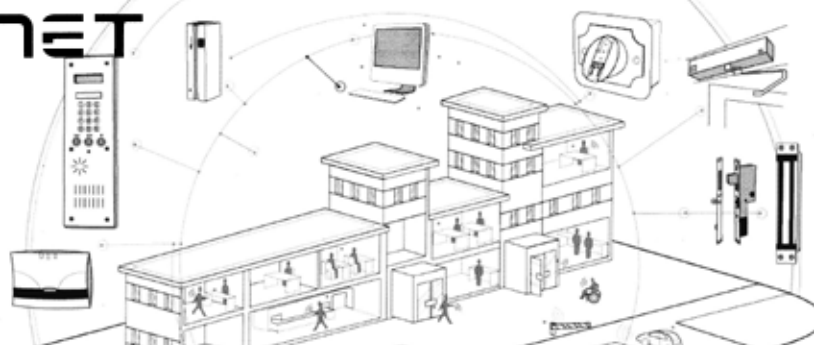

DESCRIPTION	CODE	STOCK	PRICE
System controller c/w PSU	UGL	•	476.47

Also Consider...

## LINKNET

Also consider Link.net for larger and more complex requirements

## CDV Online Access Control: UGL System

The UGL controls up to 8 separate readers (doors) - proximity, keypads, biometric. Remote sites may be included by using modems.

The CMPP is a "take-on" reader to be used for programming cards and fobs.

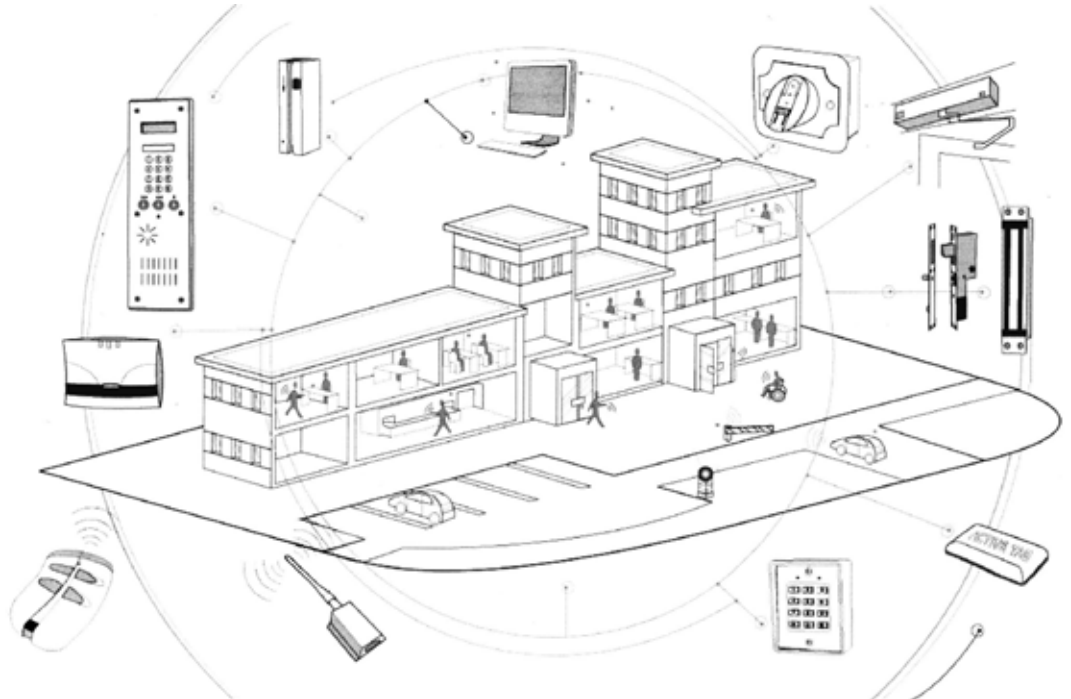

### CDVI Access Control: Link.net

For more specific information and assistance in defining the right product mix, please contact our sales/technical staff

Link.net is an Access Control System that can easily and conveniently be expanded from 2 doors up to a total of 128 doors at a remarkably economical cost per door.

Link.net supports keypads and proximity readers (for internal and external use), biometric readers for higher security and long range readers (adjustable to up to 30 metres) for vehicles etc.

## LINK.NET

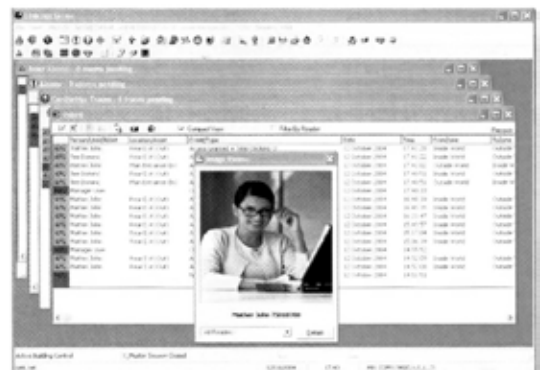

The same system can be used for asset-tagging; and also for personal management - "who is on site and where?"; evacuation control and even full time & attendance reports.

Link.net can operate on dedicated wiring or on a Local Area Network or Wide Area Network on TCP/IP.

Link.net facilitates a fully monitored organisation with high-level reporting.

With its modular architecture Link.net can monitor anything from a single door to multiple buildings across multiple sites.

As well as its powerful access control features, asset management and reporting, Link.net also incorporates Photo ID production and visitor management.

# ELECTRO-MAGNETIC LOCKS

## Surface Magnet - 300KG

**300 Kg Holding force**  
 Optional monitoring  
 Aluminium finish  
 12/24vDC selectable  
 Single: 253 x 46 x 27mm  
 -20°C - +50°C

## Also Consider...

BO Handle/Housings for magnets - stylish, convenient and economical

See next page for more details

## CDVI Electro-Magnetic Locks

This is a selection of popular general purpose magnets.

We have many other types of magnet including doubles and external quality; please ask us.

# MAGNET HOUSING & ACCESSORIES

## CDVI Magnet Housing and Accessories

For more specific information and assistance in defining the right product mix, please contact our sales/technical staff.

### BO Housings

BOH-P335ER

The BO-XX range of housings have been designed to retain the simplicity and reliability of electromagnetic locks, while not compromising on aesthetics or door width/height.

Fixing vertically along the leading edge of the door, the BO-XX range eliminates the "flexing" normally experienced with electromagnetic locks.

When the door closes, the handle covers all the electronics to keep the unit neat and vandal-resistant.

The housings are available as 2200mm to cover the complete height of the door for maximum security, or 400mm for convenient centre fixing.

2500mm handle on standard door

400mm handle on glass door

BO-XX Cutaway

DESCRIPTION	CODE	STOCK
400mm Housing complete with magnet	PBO400RN	▪

# ELECTRIC LOCKS

## Rim Locks

The MV series of electric locks are ideal for pedestrian gates, internal & external doors. The units drive a dead-bolt into a monitored keep to provide high security locking.

The locks are supplied with key override as standard, and have the option of manual override depending on the model required.

DESCRIPTION	CODE	STOCK
Lock with manual override	MVM	✓
Lock without manual override	MVA	✓

## Solenoid Bolts

The DX200 is a fail-safe entry level solenoid bolt, with features normally seen in more expensive units

Manufactured in stainless steel, with lock and door status monitoring as standard, the DX200 incorporates a "spinning" bolt to prevent sawing

Stainless steel faceplates

Voltage :12V DC Current:140mA maintained, 1.1A in-rush

Up to 800KG holding force

200 x 27 x 42mm

### DX200

Fail Safe: Power to Lock

### DX1010

Fail Secure: Power to Unlock

CODE	STOCK
DX200	▪
DX1010	▪

## SDA Electric Lock

The SDA series of electric locks are ideal for single action & double action doors.

With a patented double action feature, the SDA series provide a solution for many applications where traditional locks are not suitable.

They are available as fail-safe or fail-secure, and in a variety of backsets for the euro-cylinder provision.

Power to lock or unlock - please specify.

Backset for cylinder: 25mm, 30mm, 35mm - please specify.

CODE	STOCK
SDA	▪

## CDVI Electric Locks

Please see the CDV catalogue for the full range of solenoid bolts and electric locks

We stock a large range of power supply units, batteries, cable, contacts, buttons, photocells etc. Please ask for the full list

# ELECTRIC RELEASES

## CDVI Electric Releases

Please refer to the CDV catalogue for the full range including glass door and panic bar releases

### Fail safe

Power to lock

### Fail Secure

Power to unlock

## European Style: S Series

A series of symmetrical releases kits include surface & mortice plates, the strikes are complete with a stainless steel faceplate - includes our internal suppressor.

DESCRIPTION	CODE	STOCK

SEL2641-R433 K5

RX26-433-C4P

RX26-433I

RX26-Z2

A full range of standalone receivers, with various features. From our standard receiver with 2 relays, to a multi-channel receiver with mains switching, we offer a receiver to cater for most requirements.

DESCRIPTION	CODE	STOCK
Standard receiver, rolling code	RX26-433I	✓
External receiver, 2 channel, rolling code	RX26-Z2	▪
External receiver, 4 channel, rolling code	RX26-Z4	▪

## Radio Controllers For Large Installations

SEL2641-MEM

SEL2641-KIT

SEL2641-R433 K5

For applications where there are large numbers of radio transmitters in use to gain access through gates or barriers, the RX26-433K series of controllers allow full administration and control of up to 1600 users. The controllers have a built-in receiver, which makes installation and maintenance simple.

Programming is either via a master transmitter and backlit LCD display on the controller, or by a PC for which comprehensive software is provided. Each RX26-433K controller has two programmable relay outputs, making the units ideal for controlling traffic barriers and/or pedestrian gates.

When being used in stand-alone mode without the PC requirement, full database back-up and transfer of data can be achieved by means of a memory module. There is also a printer output for listing users - the 500 user system can only be operated stand-alone.

When connected to a PC the database is held on both the PC and the RX26-433K unit. Additionally, user databases are available, as is the option to view events real-time. One PC can be dedicated to one site or it is possible to store multiple sites on one laptop to enable engineers to programme different end user systems. Only the 800 and 1600 user systems can be connected to a PC.

The controllers are compatible with all our transmitters, making the RX26-433K a very powerful and flexible system for controlling and managing RF devices.

Users: 500, 800 or 1600  
 Finish: ABS with LCD  
 Voltage: 12/24Vac/dc  
 Current: 95mA  
 Dimensions: 180 x 140 x 68mm  
 Environmental: IP40

CDVI Radio Frequency Devices

# VIDEO ENTRY - ONE WAY

Black & White

DPV-4PB1

VRVE-S4ADS

DRC-40BS

DRC-40BG

DRC-40BP

A new range of 4-wire video entry systems, to provide enhanced performance and options for 1-way multi entrance/multi monitor systems.

Features such as image capture and door monitoring can be selected depending on the monitor - for multi monitor systems, a master/slave configuration is used - this ensures competitiveness as the slave has less populated electronics. Up to 3 video monitors, 1 audio handset and 2 external door stations can be connected together.

Kits are not supplied owing to the many combinations which can be selected, but it is very easy to put a system together by simply selecting from the list of cameras and monitors in the tables below.

DESCRIPTION	CODE	STOCK
Standard surface mounted camera	DRC40BS	✓
Standard slim monitor	4PE2	✓
Alternative options:		
Narrow, slim camera	DRC4BP	▪
