

FEDERAL *The Federal Lock Company*

Security products manufacturer established over fifty-three years ago

Federal is a world class manufacturer of heavy duty steel padlocks lock cylinders and a full range of lock cases and brass and laminated steel padlocks. Federal Lock Co. is a dynamic and innovative company.

Established in southern Taiwan in 1958 Federal now exports to more than twenty countries. The factory is registered under ISO9000. Federal padlocks are regularly tested by Sold Secure and conform to C.E.N. grades 3, 4 and 5 (Sold Secure Gold, Silver and Bronze) as appropriate.

Federal products are distributed in the U.K. by Codringtons Ltd. We hold large stocks in our London warehouse and our staff are able to provide advice, training and ongoing support.

Codringtons together with FEDERAL offer planning advice and full technical support, before, during and after installation. For more information please see the full Federal Lock Company catalogue or give us a call, email or fax, or speak to your local representative. Codringtons will try to ensure that you get the most sound and appropriate solution to match your requirements.
